IN CASE OF AN EMERGENCY

DIAL 911

Summer is Here!

Warm weather brings more opportunity for outdoor activities. Whether they are young children or teens, keep your family safe and healthy while they enjoy the summer fun.

Master Water Safety: Water-related activities are popular for getting physical activity and have many health benefits. Here are some tips to stay safe while having fun.

⇒ Learn how to prevent recreational water illnesses and help protect yourself and your kids

⇒ Help kids get H2O smart about water safety.

Drowning: Is responsible for more deaths among children ages 1-4 than any other cause except birth defects. Two to three children die every day as a result of drowning.

⇒ Always supervise children when in or around water. A responsible adult should constantly watch young children.

⇒ Teach kids to swim. Formal swimming lessons can protect young children from drowning.

⇒ Learn cardiopulmonary resuscitation (CPR). Your CPR skills could save someone's life.

⇒ Install a four-sided fence around home pools.

Beat the Heat: Heat-related illness occurs when the body's temperature control system is overloaded.

Those at greatest risk for heat-related illness include infants and children up to 4 years of age. Even young and healthy people can get sick from the heat if they participate in strenuous physical activities during hot weather. For heat-related illness, the best defense is prevention.

⇒ Never leave infants, children, or pets in a parked car, even if the windows are cracked open.

⇒ Dress infants and children in loose, lightweight, light-colored clothing.

⇒ Schedule outdoor activities carefully, for morning and evening hours.

⇒ Stay cool with cool showers or baths.

⇒ Seek medical care immediate if your child has symptoms of heat-related illness.

Just a few serious sunburns can increase you and your child's risk of skin cancer later in life. Their skin needs protection from the sun's harmful ultraviolet (UV) rays whenever they're outdoors

⇒ Cover up. Clothing that covers your and your child's skin helps protect against UV rays.

⇒ Use sunscreen with at least SPF (sun protection factor) 15 and UVA (ultraviolet A) and UVB (ultraviolet B) protection every time you and your child go outside.

Emergency Preparedness

This week: THE 12 WEEK PLAN: WEEK 8: Last week you should have gathered supplies for medical needs. This week is fire-related. You should be prepared with matches in a waterproof container in the event you need to light your outdoor grill to cook if you can't use your stove. Most importantly is having several fire extinguishers on hand. Keep one or more in your kit and in your car as well. Always have one in your kitchen and garage. For more info: <http://www.ready.gov/basic-disaster-supplies-kit>

MISSION STATEMENT

The SBCCD Police Department, in concert with the Board of Trustees, is committed to providing a safe and secure learning and working environment for all students and employees. This will be accomplished through a cooperative and coordinated effort involving all departments and the SBCCD employees, law enforcement agencies and community.

For daily incidents reports and other crime information go the Police Web site: <http://sbccd.org/police>
