Breast cancer is the second most common kind of cancer in women. About 1 in 8 women born today in the United States will get breast cancer at some point.

The good news is that many women can survive breast cancer if it's found and treated early. A mammogram – the screening test for breast cancer – can help find breast cancer early when it's easier to treat.

National Breast Cancer Awareness Month is a chance to raise awareness about the importance of early detection of breast cancer. Make a

difference! Spread the word about mammograms and encourage communities, organizations, families, and individuals to get involved.

Red Ribbon Week is the oldest and largest drug prevention campaign in the country. Although the start end dates can vary slightly depending on the organization and source, Red Ribbon Week generally takes place the last full week in October, with the weekends before and following the last full week included as appropriate celebration dates. This year Red Ribbon Week will be celebrated October 23-31, 2015.

Red Ribbon Week serves as a vehicle for communities and individuals to take a stand for the hopes and dreams of our children through a commitment to drug prevention and education and a personal commitment to live drug free lives with the ultimate goal being the creation of drug free America.
