**Career Education Program Two-Year Review**
**Program Efficacy Report**
**Spring 2015**

**Name of Department**: **Computer Information Technology (CIT)**

**Efficacy Team: Christie Gabriel-Millette, Kent Melancon, Sheri Lillard**

**Overall Recommendation (include rationale):  Continuation**

**The program provides a satisfactory update over the past two years, and presents a clear two-year plan for how they will proceed.**

**1.  Purpose of this Program: Meets**

Efficacy Team Analysis and Feedback: There has been no change in the program's purpose since the last efficacy review.

**2.  Demand for this Program: Meets**

Efficacy Team Analysis and Feedback:  The demand for two courses is addressed (enrollment in one is declining whereas another one is increasing), and scheduling has changed to reflect the demand. It might also be useful to include labor market data in this section to show industry demand for students trained in this field.

**3.  Quality of this Program: Meets**

Efficacy Team Analysis and Feedback: The program meets student needs. Program changes that will enable students to reduce the time to completion are discussed.  Other performance measures such as success and retention might be good to include, as evidence of program quality.

**4.  External Issues: Meets**

Efficacy Team Analysis and Feedback: CIT course content are aligned with recommendations from various organizations in the computer industry.

**5.  Cost of this Program: Meets**

Efficacy Team Analysis and Feedback: The report's narrative conveys that there have been no changes in program expenses/revenue.

**6.  Two-Year Plan: Meets**

Efficacy Team Analysis and Feedback: A two-year plan with regard to new courses and certificates is clearly discussed.
