Accounting

ACCT-010: Bookkeeping

This is an introductory course for students interested in the accounting field. The focus is basic bookkeeping and accounting principles for small business enterprises. Emphasis is on the development of skills used to record business transactions, as well as the procedures to prepare financial statements and complete the accounting cycle. The course is designed for occupational students and for those who wish to have preparatory training before entering ACCT 200.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
3012	10	3.00	Arranged	Online - Online	DE-LEC			Brooks,R Scudder,R

Note: The DE-LEC part of this class requires 9 hours per week of online instruction.

Note: 6 week class from 05/26/26 to 07/01/26.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

ACCT-047: Computerized Accounting

This course provides a comprehensive overview of accounting software. Topics covered include the analysis of source documents and the use of accounting software to prepare, understand, and interpret financial statements for a variety of management purposes. It also includes creation and use of spreadsheets to find the solutions to accounting problems within diverse companies.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
3014	30	3.00	Arranged	Online - Online	DE-LEC			Staff

Note: The DE-LEC part of this class requires 9 hours per week of online instruction.

Note: 6 week class from 07/06/26 to 08/13/26.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

ACCT-090: Payroll Accounting

This course is designed to introduce various types of diverse employee compensations and the current federal and state payroll taxes system. Withholding requirements from employees' compensations as well as payroll taxes reporting are studied. Various types of payroll taxes forms are discussed and prepared. This course will focus on the records and control requirements of payroll accounting.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
3016	10	3.00	Arranged	Online - Online	DE-LEC			Litel,G

Note: The DE-LEC part of this class requires 9 hours per week of online instruction.

Note: 6 week class from 05/26/26 to 07/01/26.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

ACCT-200: Financial Accounting

This introductory financial accounting course is designed for students interested in business and/or accounting fields. This course is an introduction to the basic concepts and standards underlying financial accounting systems. Students learn to record accounting data and to prepare financial statements. Several important concepts will be studied in detail, including business ethics, the accounting cycle, revenue/expenses recognition, inventory, long-lived assets, liabilities, and equities.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: MATH 102 and ENGL C1000 or ENGL C1000H.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
3018	10	4.00	Arranged	Online - Online	DE-LEC			Woodland,S

Note: The DE-LEC part of this class requires 12 hours per week of online instruction.

Note: 6 week class from 05/26/26 to 07/01/26.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
3020	30	4.00	Arranged	Online - Online	DE-LEC			Woodland,S

Note: The DE-LEC part of this class requires 14.4 hours per week of online instruction.

Note: 5 week class from 07/06/26 to 08/13/26.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

ACCT-201: Managerial Accounting

This course studies the use of accounting information in decision-making, planning, directing operations and controlling within the diverse business field. It focuses on cost terms and concepts, cost behavior, cost structure and cost-volume-profit analysis. Issues relating to ethics, cost systems, cost control, profit planning, and performance analysis in manufacturing and service environments are also examined.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ACCT 200.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
3022	30	4.00	Arranged	Online - Online	DE-LEC			Lee,S

Note: The DE-LEC part of this class requires 12 hours per week of online instruction.

Note: 6 week class from 07/06/26 to 08/13/26.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

Administration of Justice

ADJUS-104: Legal Aspects of Evidence

This course examines the origin, development, philosophy, and constitutional basis of the use of evidence. It also incorporates constitutional and procedural considerations affecting arrest, search and seizure, types of evidence, and rules governing admissibility, judicial decisions, and interpretation of individual rights. Case studies will also be covered in this class.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
3024	10	3.00	Arranged	Online - Online	DE-LEC	ONCL	ONLN	Carlos,C

Note: The DE-LEC part of this class requires 9 hours per week of online instruction.

Note: 6 week class from 05/26/26 to 07/01/26.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

Aeronautics

AERO-050: General/Calculations and Basic Electricity Airframe and Powerplant Technologies

This course provides training for the General requirements of the Aviation Maintenance Technician Certificate. Areas of study include familiarization of basic hand tools, applications of mathematics, basic physics, certain Federal Aviation Regulations (FARs), basic electricity including application of Ohm's Law, electrical terms, units of measure, types of electrical circuits, reading and interpreting electrical diagrams, and electrical components familiarization.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Corequisite: AERO 050L.

ASL-110: American Sign Language II

The course is second in a series of four ASL courses designed for the student to develop proficiency in ASL usage. Students continue to develop basic conversational skills with emphasis on expanding vocabulary and comprehension/production skills. There are four basic categories: cultural awareness, grammatical features, vocabulary development, and conversational skills.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ASL 109.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

ANTHRO-106: Biological Anthropology

This course introduces concepts and methods used to study the human species in a scientific, evolutionary framework. Topics covered include evolutionary theory, genetics, the fossil record of human ancestors, comparative primatology, human variation, and interactions between biology and culture.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: READ 100.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
3036	30	3.00	Arranged	Online - Online	DE-LEC	ONCL	ONLN	Keithly,D

Note: The DE-LEC part of this class requires 9 hours per week of online instruction.

Note: 6 week class from 07/06/26 to 08/13/26.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

ANTHRO-106L: Biological Anthropology Laboratory

This laboratory course is offered as a supplement to Biological Anthropology (ANTHRO 106 or ANTHRO 106H) either taken concurrently or in a subsequent term. Laboratory exercises are designed to introduce students to the scientific method and explore genetics, human variation, human and non-human primate anatomy and behavior, the primate and hominin fossil record, and other resources to investigate processes that affect human evolution.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite/Corequisite: ANTHRO 106 or ANTHRO 106H.

Departmental Recommendation: READ 100.

Alternate Listing: This course is also offered as ANTH-C1001L.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
3038	30	1.00	Arranged	Online - Online	DE-LAB	ONCL	ONLN	Keithly,D

Note: The DE-LAB part of this class requires 9 hours per week of online instruction.

Note: 6 week class from 07/06/26 to 08/13/26.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

ANTHRO-108: Introduction to Native American Studies

This course provides an introduction to the field of Native American Studies. It emphasizes the agency, struggles, and social justice efforts of Native Americans in the United States. Topics covered include Native cultural and intellectual traditions; racialization and intersectionality; antiracism and decolonization; and the relationship between Western scientific practices and Native American experiences. (This course is also offered as ETHS 108)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Alternate Listing: This course is also offered as ANTH-108, ETHS-108, ANTH-108H.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
3040	10	3.00	Arranged	Online - Online	DE-LEC	ONCL	ONLN	King,M

Note: The DE-LEC part of this class requires 8 hours per week of online instruction.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

ANTHRO-125: Language and Culture

This course provides a foundation for the study of language from an anthropological perspective. Topics studied fall into two main categories: the structure of language and the use of language in cultural contexts. Topics include language ideologies, speech communities, and the relation between culture and language.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: READ 100.

Alternate Listing: This course is also offered as ANTH-125.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

Architecture

ARCH-102: Digital Design Media Level I

This course introduces students to the fundamentals of representing architectural design. The class focuses on architectural drawing conventions, and uses standard architectural software to draft, document, and represent a three-dimensional design through two-dimensional drawings. Attention is drawn to the relationship between technical and presentation drawings, and the course explores and analyzes architectural presentation principles and techniques. This class introduces students to Adobe CS and AutoCAD software.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

Note: The DE-LAB part of this class requires 18 hours per week of online instruction.

Note: 6 week class from 05/26/26 to 07/01/26.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

ARCH-103: Architectural Rendering and Visual Communication

This course serves as an introduction to three-dimensional digital modeling using three-dimensional software, and focuses on how to visually communicate design intent through a series of architectural drawings and diagrams. Different types of renderings and three-dimensional views are introduced, and resulting projects are presented using layout software. This class introduces students to Adobe CS and three-dimensional software, including Revit and Rhino.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

ARCH-104: The Built Environment: Culture, Profession, and Urbanization

This course surveys the built environment throughout history and across different cultures and geographies worldwide. Emphasis is on the role of architecture, and allied disciplines such as urban design and planning, in enabling colonial expansion and domination of non-western cultures. This historical survey ends with an assessment and understanding of contemporary architectural practice, along with licensing pathways and academic and professional trajectories.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

ART-103: Art Appreciation

The course is an introduction to two- and three-dimensional art from a multicultural perspective. Art in a historical and worldwide context, the function of art in society, art processes, and visual vocabulary are examined. Students will develop an increased appreciation of the differences and similarities among the styles, content, and expression of world art.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Alternate Listing: This course is also offered as ARTH-103.

ART-121: Three-Dimensional Design

This course is a study in the elements and principles of three-dimensional design. The focus is on concepts and their application with regards to spatial relationships and composition.

Experimentation is in natural and synthetic materials such as but not limited to paper, clay, wood, plaster, and metal.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ART 120 and ENGL C1000 or ENGL C1000H.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

Astronomy

ASTRON-120: Introduction to Astronomy

This is an introduction to astronomy, the ultimate adventure. Our very big universe can be described by a small set of knowable rules through a logical method called science, where the excitement of an evolving and sometimes violent universe of stars and galaxies is explored. Topics include the night sky, motions of the Sun, the Moon, and the planets, light, properties and life-cycles of stars with a detailed look at our Sun, galaxies, and the origin of the universe.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

Alternate Listing: This course is also offered as ASTR-C1001.

ASTRON-125: Astronomy Laboratory

This course is the companion course to ASTRON 120 Introduction to Astronomy. Laboratory work provides a hands-on enrichment and deeper understanding of topics discussed in the astronomy lecture. Topics include use of star maps, identification of constellations, determination of orbits, rotation rate, and mass of celestial objects using astronomical methods of observation and analysis. Students will also perform 3-D modeling of the solar system and constellations, study the nature of light, lenses and telescopes, make some direct observations with telescopes, and utilize astronomical software.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite/Corequisite: ASTRON 120.

Alternate Listing: This course is also offered as ASTR-C1001L.

Automotive Technology

AUTO-056: Automotive Heating and Air Conditioning

This course is an in-depth study of the design and operation of contemporary, domestic and import vehicle air conditioning/heating systems. Air conditioning and heating related parts will be disassembled, inspected and a determination made of the serviceability of existing parts. Emphasis is placed on problem diagnosis of and repair procedures for these systems. This course also offers an introduction to Automatic A/C and Comfort Control Systems, and recovery and recycling of refrigerants.

Credit Type: Earned units for this course are applicable to an Associate Degree.

BIOL-141: Genetics

This course is a general introduction to the fundamentals of human heredity. Topics include patterns of inheritance, the structure of DNA and its function, the role mutations play in genetic diseases and cancer, the interaction between genes and the environment, and recent advances in biotechnology and its impact on society.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

BIOL-155: Introductory Anatomy and Physiology

This course is a one-semester introduction to human anatomy and physiology. The course is intended to meet the prerequisite for students entering allied health technician programs or general education requirements of a life science course with a laboratory.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Departmental Recommendation: Eligibility for college level English based on the SBVC Guided-Self Placement process.

BIOL-250: Human Anatomy and Physiology I

This is the first semester of a two-semester sequence that introduces students to the basic concepts and principles of human anatomy and physiology. This course provides a foundation for pre-allied professional majors or others interested in the advanced study of human biology. Topics include inorganic and organic chemistry, body orientation and organization, cytology, histology, fluid and electrolyte balances, and the following systems: nervous, skeletal, muscular, nervous, digestive system, and metabolism. Course includes dissections of preserved specimens.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

BIOL-260: Human Anatomy

This is a comprehensive lecture/laboratory course in human anatomy. It is organized to explore the body both regionally and systemically. The course studies gross anatomy with an extensive dissection of the cat and other significant organs. Relevant comparisons to human systems and structures are emphasized in the laboratory portion of the course. Histological and cellular anatomy are included as they apply to various structures and systems.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: BIOL 155.

BUSAD-105: Small Business Management/Entrepreneurship

This is a course on how to start and operate a small business. Topics include facts about small business, essential management skills, how to prepare a business plan, financial needs, marketing strategies, and legal issues. This is a comprehensive examination of establishing and operating a small business in today's dynamic business environment.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

BUSAD-108: Personal Finance, Investments and Estate Planning

This course is an integrated approach to personal finance focusing on practical financial decision making as well as the social, psychological, and physiological contexts in which those decisions are made. The student will examine the preparation for managing one's personal finances and the opportunities and costs with making financial decisions.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

BUSAD-127: Business Communication

This course is a study of the principles and role of business communication and the need for communication skills in interacting with diverse populations in a global marketplace. Emphasis is placed on written communications, including business letters, proposals, resumes and other business documents.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Prerequisite: ENGL C1000 or ENGL C1000H.

Chemistry

CHEM-101: Introductory Chemistry

Introductory chemistry involves the study of the material makeup of our world and its relationship to life, the natural environment, and our lived experiences. General scientific principles including scientific observation and measurement are also introduced. This course is designed to prepare students for careers in nursing, medicine, engineering and other science and allied health professions.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

CHEM-105: Introduction to General, Organic and Biochemistry

This course provides a foundation for the concepts of general, organic, and biochemistry for students who wish to pursue allied health fields such as nursing. Some of the areas studied include the physical and chemical properties of common elements and compounds, the SI system, measurements and conversions, atomic structure, the periodic table, chemical equations and calculations, gases, solutions, electrolytes as well as an introduction to the bonding, naming, structure, and chemical and biological properties for different classes of organic compounds and biomolecules, with a focus on their cellular, medicinal and commercial importance.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

CHEM-150: General Chemistry I

General Chemistry I is first-semester college-level chemistry with an emphasis on the mole concept, thermochemistry, atomic and molecular structure, the relationships of intramolecular and intermolecular forces to chemical and physical properties, the periodic table, organic chemistry, and solids, liquids and gases.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisites: CHEM 101 or CHEM 105.

Prerequisite/Corequisite: MATH 102 or placement into MATH 102 based on the SBVC Guided-Self Placement process.

Students should access <http://online.valleycollege.edu> during the week prior to the semester start date. All information regarding this class, including course-specific technology requirements, will be found on that webpage. The course may not be accessible to students until the first day of the class.

CHEM-151: General Chemistry II

General Chemistry II is the second half of a two-part sequence in chemistry with an emphasis on thermodynamics, chemical equilibrium, chemical kinetics, nuclear and electrochemistry. This course prepares students for future courses and careers in chemistry, physics, biology, health sciences, and the earth sciences.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: CHEM 150 and MATH 102 or MATH 151 or placement into MATH 250 based on the SBVC Guided-Self Placement process.

All information regarding this class, including course-specific technology requirements, will be found on that webpage. The course may not be accessible to students until the first day of the class.

CHEM-212: Organic Chemistry I

This course examines the properties, synthesis, and reactions of organic compounds, those that contain carbon, which includes many important modern materials, such as plastic and pharmaceuticals. It also provides the foundational background to later learn about the chemistry of biological systems.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite/Corequisite: CHEM 151.

Child Development

CD-061: Activities for School-Age Children

This course is a survey of programs and activity planning for school-age children, including both before-and after-school activities for groups and individuals. Inclusive and culturally responsive teaching practices in school age programs are emphasized.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Departmental Recommendation: READ 100.

Alternate Listing: This course is also offered as CDEV-061.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
3218	20	3.00	--T-R--	Online - Online	DE-LEC	ONCL	ZOOM	Staff

Note: The DE-LEC part of this class requires 06:00P 07:50P of online instruction.

Note: This is an online synchronous class with Zoom class meetings. Participation in this class requires the student to log in and be present for lecture on Tuesdays and Thursday from 06:00-07:50pm. In addition, students will be required to complete online instructional content via Canvas. On the first day of class students must log into Canvas to access this course and receive initial information from the instructor (typically located on the announcement page of the course). Students should log on to Canvas prior to the first day of class to access the presentation schedule Tuesday, June 9, 2025.

CD-105: Child Growth and Development

This course examines the progression of development in the physical, cognitive, social and emotional domains and identifies developmental milestones for children from conception through adolescence. There is an emphasis on interactions between biological processes and environmental factors. Students observe children, evaluate individual differences, and analyze characteristics of development at various stages according to developmental theories.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H or READ 100.

CD-105H: Child Growth and Development - Honors

This course examines the progression of development in the physical, cognitive, social and emotional domains and identifies developmental milestones for children from conception through adolescence. There is an emphasis on interactions between biological processes and environmental factors. Students observe children, evaluate individual differences, and analyze characteristics of development at various stages according to developmental theories. This course is intended for students in the Honors Program but is open to all students who desire more challenging course work.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: ENGL C1000 or ENGL C1000H.

CD-113: Principles and Practices of Teaching Young Children

This course examines the historical and theoretical perspectives of developmentally appropriate practices in early care and education for children from birth through age eight. Typical roles and expectations of early childhood educators are explored. Professional ethics, career pathways and professional standards are identified. Students learn best practices for developmentally and culturally appropriate learning environments, curriculum, and effective pedagogy for young children, including how play contributes to children's learning, growth and development.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Departmental Recommendation: ENGL C1000 or ENGL C1000H or READ 100.

Note: This is a HYBRID class. This means that there are both on-campus and online Internet activities required. To participate in this class you must attend all scheduled on-campus classes and have access to a computer that has a reliable internet connection. Students should access <http://online.valleycollege.edu> during the week prior to the semester start date. All information regarding this class, including course-specific technology requirements, will be found on that webpage. The course may not be accessible to students until the first day of the class.

CD-114: Introduction to Curriculum

This course presents an overview of developmentally appropriate curriculum and environments for children from birth through eight. Students use knowledge of children's development, theories of learning and development, culturally respectful practices and examples from various models of developmentally appropriate practice, to plan environments and curriculum in all content areas to support children's development and learning integrated throughout the indoor and outdoor settings.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Prerequisite: CD 105 or CD 105H.

CD-127: Guidance of Children

This course presents a developmental approach to the guidance and discipline of children. Effective guidance theories and methods are presented for teachers and professionals working with children, including children with special needs. Effective communication methods for early childhood educators working with children and their parents will be emphasized.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Note: 6 week class from 05/26/26 to 07/01/26.

Note: This is a synchronous course. Students registered in this course will be required to log in and be present for the days and times listed. You will be live online with the instructor for all class meetings.

CD-136: Creative Art Experiences for Children

This course focuses on establishing an environment for young children that cultivates and nourishes creativity and their aesthetic sense. It includes the principles of creative development; instructional strategies; materials, tools and equipment in an art program; and developmentally appropriate activities and experiences which underscore the emotional, social, physical, and cognitive needs of children from two through eight years of age.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Departmental Recommendation: ENGL C1000 or ENGL C1000H or READ 100.

Alternate Listing: This course is also offered as CDEV-136.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

CD-137: Play and Materials for Children

This course introduces the theories and pedagogies of play and inquiry based learning and development. A focus of the course is on how play, inquiry, pedagogy, assessment and planning are purposefully and holistically integrated across a range of learning contexts. Child centered approaches are examined with a focus on using environments and resources to plan and support learning and development.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Departmental Recommendation: ENGL C1000 or ENGL C1000H or READ 100.

Alternate Listing: This course is also offered as CDEV-137.

CD-138: Teaching in a Diverse Society

This course is an examination of the historical and current perspectives on diversity and inclusion and the impact of systemic societal influences on children's development, learning and school experiences. Strategies for developmentally, culturally and linguistically appropriate anti-bias curriculum are explored, as well as approaches to promote inclusive and anti-racist classroom communities. The course includes self-reflection on the influence of a teacher's own culture and life experiences on teaching and interactions with children and families.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H or READ 100.

Alternate Listing: This course is also offered as CDEV-138.

Communication Studies

COMM-111: Interpersonal Communication

Interpersonal communication examines the dynamics of the communication process within the context of interpersonal relationships (those with friends, families, romantic partners, professionally and co-workers). Influences of self-concept, perception, listening, verbal and non-verbal communication, and emotional expression are explored. Principles of professional and romantic relationship development, communication climate, self-disclosure, and conflict management are also discussed. Rhetorical, theoretical, and practical skills are also developed and practiced, with faculty supervision/evaluation in a variety of ways. (Formerly COMMST 111)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English based on the SBVC Guided-Self Placement process.

Alternate Listing: This course is also offered as COMM-C1004, COMM-C1004H.

COMM-111H: Interpersonal Communication - Honors

Interpersonal communication examines the dynamics of the communication process within the context of interpersonal relationships (those with friends, families, romantic partners, professionally and co-workers). Influences of self-concept, perception, listening, verbal and non-verbal communication, and emotional expression are explored. Principles of professional and romantic relationship development, communication climate, self-disclosure, and conflict management are also discussed. Rhetorical, theoretical, and practical skills are also developed and practiced, with faculty supervision/evaluation in a variety of ways. This course is intended for students in the Honors Program, but is open to all students who desire more challenging course work. (Formerly COMMST 111H)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English based on the SBVC Guided-Self Placement process.

Alternate Listing: This course is also offered as COMM-C1004, COMM-C1004H.

COMM-135: Mass Media and Society

This course explores the history, effects, and role of the mass media in the U.S. The major forms of mass communication are studied (television, radio, film, newspapers and magazines). There is also a focus on critical analysis of media messages, effects of media on individual and society, and theories of communication. Students move beyond being "consumers" of media to "analysts" of media. (Formerly COMMST 135)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English based on the SBVC Guided-Self Placement process.

Formerly: COMMST-135.

via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

COMM-174: Intercultural Communication

This course focuses on the communication behaviors and values common to all cultures and ethnic groups and on the differences that insulate and divide people. Students will examine influences on the communication process, including aspects such as stereotyping, perception, prejudice, values and expectations. Students will learn to overcome the communication problems that can result when members of other cultures communicate by evaluating their own intercultural communication patterns and learning skills to increase their effectiveness. Students will also acquire a greater appreciation for others. (Formerly COMMST 174)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English based on the SBVC Guided-Self Placement process.

Computer Science

CS-075: Introduction to Web Development

This course focuses on web development and addresses the essentials for skilled web developers who can create digital media, web, and mobile applications for modern desktop and portable devices. Students in this program are offered an in-depth, project-driven curriculum that provides a comprehensive study of HTML, CSS, JavaScript, Web Animation, Multimedia Creation. Students will learn to develop visually aesthetic, user friendly, and interactive web-based applications. Students will also gain valuable experience using front end and backend development tools like Adobe Dreamweaver, Adobe Animate, and Visual Studio. Students will also be exposed to the programming languages that cross over from web development to mobile device development. The synergy between the many web and mobile technologies will help each student build a foundation suitable for professional content.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Education (SBVC)

EDUC-102: Introduction to Education Policy

This course provides an overview of how federal and state education policy and practice, assessment

theories, teaching practices and methodologies can exert a positive impact on teaching and learning outcomes frameworks governing public education. It explores the political dynamics of policy-making with an emphasis on centralized policy-making authority and on efforts to reform and improve public schools. It also explores competing values guiding policy debates and dilemmas of centralized policy control.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: READ 100.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

EDUC-103: Education, Society, and Culture

This course introduces the history and philosophy of public education in the United States, how and why certain school-society issues first arose in this country, and how those issues have changed over time with an emphasis on critical social justice-oriented theories and principles that actively address the dynamics of oppression and privilege within the context of education, society, and culture. This course examines society as the product of historically rooted, institutionally sanctioned stratification along socially constructed group lines, including race, class, gender, sexual orientation, and ability. It also includes a survey of the political economy, dominant ideologies, and existing educational practices that have precedents in various historical eras with an examination of the history of education of girls and women, People of Color, minority groups and people of varying socioeconomic classes.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: READ 100.

English As a Second Language

ESL-604: ESL Integrated Skills - English for Work and Education

This noncredit course is designed to prepare high-beginning English language learners to use Standard English for job interviews, and in conversations at work and in educational settings. Students will begin learning aspects of composition. In addition, students will learn effective note-taking skills. This course is taught through total English immersion while acknowledging students' cultural experiences.

Credit Type: Noncredit course.

Grading Restriction: Graded on a Credit/No Credit basis only.

Departmental Recommendation: ESL 603 or eligibility as determined by the SBVC assessment process or by advisement.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

Note: This class meets on campus on the days and time listed.

Ethnic Studies

ETHS-104: Latina/o/x Studies

This course offers an overview of the experiences and contributions of Latina/o/x communities in the United States. Students will examine the impact of colonization, immigration, and forced displacement on these communities, as well as the formation of cultural identity and resistance movements. Throughout the course, students will analyze the intersections of race, ethnicity, class, gender, sexuality, and other forms of oppression that shape the experiences of Latino/a and Chicano/a communities. They will critically examine issues such as education, labor, health, immigration, and representation in media and politics.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Film, Television, and Media

FTVM-101: Introduction to Electronic Media

This course introduces the history, structure, function, economics, content, and evolution of cinema, broadcast, and emerging media, including traditional and mature formats. The social, political, regulatory, ethical, and occupational impact of electronic media are also studied.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

FTVM-102: Introduction to Film and Media Aesthetics

This course introduces the close analysis of film and television and examines the broad questions of form and content, aesthetics and meaning, and history and culture. The course also explores the diverse possibilities presented by the cinematic art form through an examination of a wide variety of productions, national cinemas, and film movements. The topics include modes of production, narrative and non-narrative forms, visual design, editing, sound, genre, ideology and critical analysis.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

FTVM-103: Ethnicity and Identity in Media

This course explores the impact of identity on film as an art form and cultural artifact by confronting ideologies of race, class, gender, and sexual orientation as they are reflected in cinematic representation. American film is used as the primary lens through which to view how social, political, and cultural values have been formulated over the last century. Students analyze major films, figures, character types, and narrative strategies to evaluate the relationship between film and identity. (This course is also offered as ETHS 103)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Alternate Listing: This course is also offered as ETHS-103.

FTVM-111: Studio Audio Production

This course serves as an introduction to the theory and practice of broadcast audio production for podcasting, digital recording applications, and radio. Students will learn the fundamentals of sound design and aesthetics, microphone use, digital audio workstations, and digital recording equipment. Students gain hands on experience recording, editing, mixing, and mastering audio. Upon completion, students will have basic knowledge of applied audio concepts, production workflow, equipment functions, and audio editing software.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

To participate in this class you must attend all scheduled on-campus classes and have access to a computer that has a reliable internet connection. Students should access <http://online.valleycollege.edu> during the week prior to the semester start date. All information regarding this class, including course-specific technology requirements, will be found on that webpage. The course may not be accessible to students until the first day of the class.

FTVM-114: Editing I

This course focuses on the fundamental techniques, skills, and theories of editing as well as the technical requirements for assembling a digital video project. Through a series of hands-on projects, students will put traditional theories of picture and sound editing into practice. The course will also cover the history of nonlinear editing and provide an overview of the post-production process.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to CSU.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

FTVM-601: Steadicam Operation

This noncredit course will provide instruction on the use of the Steadicam. Steadicam is now a commonly used tool within the film and television industry that requires training and practice in order to produce good results. More than just a stabilizer, as a shooting system it is able to provide an individual style to the production often greatly desired by producers and directors. Additionally, complex moving scenes can not only be quicker to shoot, but also more dramatic by adding pace and dimension to the shot.

Credit Type: Noncredit course.

FTVM-604: Grip and Lighting for Film and Media

This hands-on, non-credit course provides an introduction to the essential skills and techniques of lighting and grip work in film and media production. Students will learn the fundamentals of setting up and manipulating lighting to create mood, tone, and visual style for a variety of projects. The course also covers grip techniques, including rigging, camera support, and safely handling equipment on set. Designed for beginners and those looking to enhance their technical skills, this course is ideal for students interested in behind-the-scenes roles in film, television, and digital media production.

Credit Type: Noncredit course.

Grading Restriction: Graded on a Credit/No Credit basis only.

Geographic Information Systems

GIS-130: Introduction to Geographic Information Systems (GIS)

How do corporations know where to locate retail stores and restaurants? How do epidemiologists know how to confront epidemics, pandemics, and related disease outbreaks? How does your utility provider know the location of power outages and water leaks? How do demographers create maps based on ethnicity, socioeconomic status, age, gender, religious affiliation, and other population characteristics? The answers to these questions and more are found within Geographic Information Systems (GIS). This course provides an introduction to the fundamentals of Geographic Information Systems (GIS), including the history of automated mapping. It includes a brief introduction to basic cartographic principles, including map scales, coordinate systems and map projections. GIS hardware and software are implemented, as are various applications of GIS technology used in environmental science, business and government. Using automatic mapping software like ArcGIS Online, ArcGIS Pro, ArcMap, and Story Maps, you will create maps that address a variety of local to global issues. (This course is also offered as GEOG 130)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ECON 208 or STAT C1000 or STAT C1000H or PSYC 105 and ENGL C1000 or ENGL C1000H.

Alternate Listing: This course is also offered as GEOG-130.

Geography

GEOG-102: Cultural Geography

Are you fascinated with the enormous diversity of culture, language, religion, economics, politics, urbanization, agriculture, and ethnicity around the world? Have you ever wondered how this developed? Are you concerned about human rights, social justice, climate change, and access to clean drinking water, healthcare, education, and resources? Using the tools of geography, this course will help you to understand how humans interact each other and how humans interact with the environment.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

GEOG-110: Physical Geography

You may have noticed that Earth's atmosphere, life forms, water resources, and landforms vary considerably from one place to another. This class helps you to understand how and why these variations occur, how the environment impacts us humans, and how we humans impact the environment. People from different backgrounds experience environmental impacts differently, so environmental justice is interwoven throughout this course. GEOG 111/GEOG 111H is strongly recommended for students who desire to transfer to CSU/UC. It is recommended that students complete GEOG 111/GEOG 111H within three years of completing GEOG 110.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

GEOG-111: Physical Geography Laboratory

In this laboratory companion for the GEOG 110 physical geography lecture course, you will use hands-on, in-class and field-based experiences to better understand and appreciate how and why Earth's atmosphere, life forms, water resources, and landforms vary considerably from one place to another. Because we humans are part of the physical environment, it is important to understand how people from different backgrounds impact the environment and experience environmental impacts differently. This course is recommended for students concurrently enrolled in GEOG 110 or who have successfully completed the course within the last three years. Students should be prepared to participate in one or more off-campus field exercises.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite/Corequisite: GEOG 110.

Geology

GEOL-101: Introduction to Physical Geology

Earth is an amazing place, and for millennia cultures and civilizations have attempted to explain the various topics that relate to our understanding of our blue planet. From the various minerals, rocks, and resources found on it that power our cellphones and televisions to the dramatic features, such as mountains, volcanoes, canyons etc. that shape our landscape. From the consequential natural disasters such as earthquakes that we in California and people around the world deal with on an annual basis to the disproportionate effects of global climate change. In this course we build a fundamental understanding of these topics (and many more) by emphasizing the overarching Theory of Plate Tectonics, the processes that created the continents and the ocean basins, and the internal and external processes that change the landscape and impact the planet in a variety of ways we seek to put ourselves in the context of our planet.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

GEOL-111: Introduction to Physical Geology Laboratory

This course is a hands-on introduction to the study of the Earth, with an emphasis on the materials that make up the Earth. Students will participate in one or more field trips. This course is recommended for students concurrently enrolled in GEOL 101 or who have successfully completed GEOL 101 within the last two years.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite/Corequisite: GEOL 101.

Note: 6 week class from 05/26/26 to 07/01/26.

GEOL-140: Earth Science

An introduction to the essentials of Earth Science including the geosphere, atmosphere, hydrosphere, and solar system. This course focuses on the interactions between physical and chemical systems of the Earth such as the tectonic cycle, rock cycle, hydrologic cycle, weather, and climate.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Note: This is a HYBRID class. This means that there are both on-campus and online Internet activities required. To participate in this class you must attend all scheduled on-campus classes and have access to a computer that has a reliable internet connection. Students should access <http://online.valleycollege.edu> during the week prior to the semester start date. All information regarding this class, including course-specific technology requirements, will be found on that webpage. The course may not be accessible to students until the first day of the class.

GEOL-141: Earth Science Laboratory

In this laboratory component of the GEOL 140 Earth Science lecture course, you will use hands-on, field-based, and in-class experiences to better understand and appreciate the geosphere, atmosphere, hydrosphere, and solar system. This course focuses on the physical and chemical systems of the Earth such as the tectonic cycle, rock cycle, hydrologic cycle, weather, and climate. This course is recommended for students concurrently enrolled in GEOL 140 or who have successfully completed the course within the last three years. Students should be prepared to participate in one or more off-campus field exercises.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite/Corequisite: GEOL 140.

Global Studies

GLST-102: Global Issues

This course examines the origins, current status, and future trends of major transnational issues

confronting the global community. Topics may include population trends, economic development and inequality, basic human needs and human rights, international conflict and security, competition over resources, movements for independence and social justice, environmental issues, and violence. This course focuses on global governance and collective global responsibility.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: GLST 101.

Health Education

HEALTH-100: Introduction to Public Health

This course introduces the environmental, biological, and socio-cultural determinants of public health. Emphasizes workplace, personal health, community and school healthcare policy, management, environmental and the health disparities among minorities. Focus on environmental health, chronic disease, global and public Health. Examines the qualitative and quantitative research methodologies for studying epidemiology. Analyze the multiple chronic diseases, addictions, psychiatric disorders, and the challenges local and global health in protecting our planet.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

HEALTH-103: Introduction to Holistic Health

This course explores health and healing practices involving theoretical, psychological, sociological, biological, historical, and cultural viewpoints. It delves into concepts and philosophies from traditional cultural healing systems and contemporary Western medicine through an interdisciplinary lens. The focus is on promoting health, preventing disease, and empowering individuals to advocate for their well-being with support from healthcare professionals. Topics encompass the history of Western medical practices, principles of indigenous healing systems, the influence of gender on healing, the impact of personality and emotions on health and disease, and the principles of integrative medicine.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Learning Skills and Tutoring

LST-606: Supervised Tutoring/Academic Instructional Support

Students enrolled in this noncredit class receive assistance in understanding course-specific content in various content area classes. Activities may include, but are not limited to, supervised individual or group tutorial/instructional services, computer assisted instruction and testing.

Credit Type: Noncredit course.

Grading Restriction: Graded on a Credit/No Credit basis only.

Limitation on Enrollment: Students will be assigned to this course by a counselor or instructor or for supervised tutoring and learning assistance subject to regulations under Title 5, Section 58172 & 58164(c). Enrollment in at least one other course at San Bernardino Valley College and/or Crafton Hills College.

Library Technology

LIB-064: Introduction to Library Services

This course is an introduction to the philosophy of library services and the history and types of libraries. The class covers the relationship of a library to the community it serves, especially in terms of typical library services and programs. Finally, the library in the online environment and the organizational structure of libraries are considered.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Departmental Recommendation: READ 100.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
3790	70	2.00	Arranged	Online - Online	DE-LEC	ONCL	ONLN	Notarangelo,M

Note: The DE-LEC part of this class requires 6 hours per week of online instruction.

Note: 6 week class from 07/06/26 to 08/13/26.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

LIB-098: Library Technology Work Experience

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Mathematics

MATH-102: College Algebra

This course is designed for students with a strong foundation in algebra. It includes the study of polynomial rational functions and inequalities, exponential and logarithmic functions, conics, systems of nonlinear equations and inequalities, and an introduction to sequences, series, and the Binomial Theorem.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

MATH-120: Mathematical Financial Planning

Learn the fundamentals of personal financial planning. This is a course designed to help students plan their financial life from student loans to retirement and investment strategies. Topics include credit management strategies, loan evaluation, buying and leasing automobiles, buying a house, investing and portfolios, insurance, taxes, and retirement planning. All topics developed through rigorous quantitative and mathematical applications in linear, algebraic, exponential, and logarithmic functions, sequences, series, and an introduction to portfolio risk analysis. Use of technology and financial calculators for financial planning.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

MATH-151: Precalculus

This course is designed for students preparing to take Calculus. It deepens students' understanding

of algebra and trigonometry by building on topics from College Algebra and Plane Trigonometry, both of which are foundational for Calculus students. Topics include polynomials, rational, exponential, logarithmic, and trigonometric functions and their graphs, systems of linear and nonlinear equations and inequalities, partial fraction decomposition, parametric and polar equations, and an introduction to limits.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: MATH 102 and MATH 103 or placement into MATH 151 based on the SBVC Guided-Self Placement process.

Music (SBVC)

MUS-100: Music Appreciation

This course introduces students to music in western civilization and methods of music listening. Included in this course are guidelines for thoughtful music selection, basic musical forms, cross-cultural studies in music, music periods and styles, a discussion of patrons and audiences, careful consideration of the role of women in creating music, history of art music, popular music, world music, and jazz.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Alternate Listing: This course is also offered as MUS-100H.

MUS-101: Music Theory I: Fundamentals

This course studies music terminology, elements of music (pitch, duration, intensity, and timbre), rhythmic analysis, major scales and their key signatures, chromatic scales, intervals, and solfeggio syllables. It is a course designed for the beginning student with a moderate interest in the structure of music. It is also designed for the music major and as such serves as the first in a four-part series of music theory courses.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Corequisite: MUS 101L.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

MUS-101L: Musicianship I

Specifically, this course applies the materials studied in Music Theory I through sight-singing (using solfeggio syllables), keyboard skills (the playing of scales and identification of pitches on the keyboard), recognition and performance of intervals, and some ear-training (melodic dictation). This course is the companion course to MUS 101.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Corequisite: MUS 101.

MUS-104: History of Rock and Roll

This course is a chronological survey of rock music styles. Included in the course is a study of the origins and the development of Rock and Roll. The major performing artists, composers, lyricists,

promoters and arrangers are all studied. A major aspect of the course is the emphasis on how Rock and Roll has impacted Western culture.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

MUS-105: American Popular Music

This course traces the social history of America through a study of the eras of popular American music. By examining the various styles, the outstanding musicians and the leading composers exemplary of those styles, this class illustrates how the historical era impacts the music and how the music reflects the historical era. The course begins with a discussion of popular music examining the popular songs of the colonies and the schools of singing that developed. The discussion continues

through the music of the Civil War and tracks popular music across the great westward expansion. It concludes with studies of Gospel, Blues, Jazz and ultimately Rock and Roll.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Canvas Log In Page

Oceanography

OCEAN-101: Elements of Oceanography

This course explores the geological processes that created the ocean basins, chemistry of sea water, physical motions of the oceans, and the interrelationships of biological communities with their physical environments. Oceanographers and related scientists from traditionally underrepresented groups are featured throughout this course. Environmental issues and environmental justice movements associated with the world's oceans fundamentally inform this course. Geospatial analysis of world oceans, including Geographic Information Systems (GIS) and remote sensing, is an integral component of this course. It is recommended that transfer students also enroll in the companion OCEAN 111, Elements of Oceanography Laboratory.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: MATH 102 or higher and ENGL 1000 or ENGL C1000H.

OCEAN-111: Elements of Oceanography Laboratory

This hands-on course introduces students to techniques of oceanography, including bathymetry, charts, and methods of studying the physical ocean environment. Oceanographers and related scientists from traditionally underrepresented groups are featured throughout this course. Environmental issue and environmental justice movements associated with the world's oceans fundamentally inform this course. This course is recommended for students concurrently enrolled in OCEAN 101 or who have successfully completed the course within the last three years.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite/Corequisite: OCEAN 101.

Pharmacy Technology

PHT-062: Pharmacology I

This course introduces the basic pharmacology principles of pharmacokinetics and pharmacodynamics as it applies the therapeutic uses of medications being administered to the human body systems. The student will identify the medication's classifications, emphasizing basic indications, drug dosages, dosage forms, routes of administration, side effects, special directions of use, and drug interactions with other medications, foods, and/or nutrient supplements.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Departmental Recommendation: BIOL 205 or CHEM 101.

Philosophy

PHIL-101: Introduction to Philosophy

This course is a general introduction to the major problems and questions as pondered by philosophy's great thinkers. Attention is directed to both classic and modern philosophy and will include various voices from the history of philosophy as a basis for discussion of issues such as epistemology, metaphysics, ethics, and aesthetics.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: ENGL C1000 or ENGL C1000H.

Physics

PHYSIC-101: Introductory Physics

This introductory, algebra-based, physics course is an exploration of the physical principles ranging from classical mechanics to modern physics, which shape our lives. Students will be better equipped to make connections between the concepts of physics and their everyday world. This class includes a hands-on laboratory to bridge the connection between theory and everyday life. This course also explores the connections between physics and other fields of science, technology, and society.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

Psychiatric Technology

PSYTCH-085: Psychiatric Technology: Nursing Science

This course is the study of basic nursing science concepts and skills with emphasis on nursing care for pediatric, adult and geriatric clients with medical and surgical disorders. Application of theory to the care of physically ill clients in acute and long-term care agencies.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Prerequisite: PSYTCH 084.

Limitation on Enrollment: Registration is limited to students who have completed the program prerequisites and have been accepted into the Psychiatric Technology program.

PSYTCH-600: Psychiatric Technician Skills Lab

This noncredit class offers inclusive support to students by assisting them in understanding the course-specific content within the Psychiatric Technology program. The class is designed to accommodate diverse learning styles and needs, with activities such as dosage calculation practice, demonstrations, and practice of essential psych tech skills and procedures. These activities help students develop competencies in various areas, including physical assessment, isolation techniques, oxygenation, wound care, urinary catheterization, medication administration, and other specialized medical and surgical skills. Instructional services are tailored to meet the needs of all students and may include supervised individual or group tutorials, computer-assisted instruction, and testing. Enrollment in this class is open to all students currently enrolled in the SBVC Psychiatric Technology program, ensuring equitable access to learning opportunities for all participants.

Credit Type: Noncredit course.

Grading Restriction: Graded on a Credit/No Credit basis only.

Limitation on Enrollment: Students must be enrolled in at least one other Psychiatric Technology course at San Bernardino Valley College or a recent graduate of the Psychiatric Technician program.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

Psychology

PSYC-102: Personal and Social Adjustment

This course provides students with an applied focus on how psychology is used in everyday life and is related to other social sciences. This course examines a variety of psychological and theoretical perspectives and how these ideas are applied across a person's life taking into account the influence of factors such as culture, gender, ethnicity, historical cohort, and socio-economic status. A broad understanding of how scientists, clinicians, and practitioners study and apply psychology is emphasized. (Formerly PSYCH 102)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: PSYC C1000 or PSYC C1000H.

Departmental Recommendation: READ 100.

Formerly: PSYCH-102.

PSYC-105: Statistics for the Behavioral Sciences

This class focuses on statistics as applied to the social sciences and includes such topics as measurement, frequency distributions, measures of central tendency, measures of variability, the normal distribution curve, correlation, sampling, statistical inference, hypothesis testing and an introduction to analysis of variance. (Formerly PSYCH 105)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

Departmental Recommendation: PSYC C1000 or PSYC C1000H.

Formerly: PSYCH-105.

PSYC-141: Introduction to Biological Psychology

This course will introduce the scientific study of the biological bases of behavior and the role of the scientific method in neuroscience. Topics will include basic neuroanatomy and neurophysiology, nervous system structure and functions, hormonal and neurochemical mechanisms, brain-behavior relationships underlying movement, sensation, perception, learning, memory, consciousness, emotion, regulatory processes, and psychological disorders. Historical scientific contributions and current research principles for studying brain-behavior relationships and mental processes will be addressed in this course. Ethical standards for human and animal research will be discussed in the context of both invasive and non-invasive experimental research. (PSYCH 141)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: PSYC C1000 or PSYC C1000H.

Departmental Recommendation: READ 100.

Reading and Literacy

READ-015: Preparation for College Reading

Have you seen the movies IT or Doctor Sleep? They are based on Stephen King novels. How about The Hate U Give, Crazy Rich Asians, or Jurassic Park? These movies were also book-to-movie adaptations. If you're a fan of movies, read the books that inspired them! This course is designed to foster improvement in reading comprehension and vocabulary. Coursework includes reading texts from various genres and other assignments, while preparing students for college reading success across the disciplines. This course may also be offered for noncredit as READ 615.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

STAT-C1000: Introduction to Statistics

This course is an introduction to statistical thinking and processes, including methods and concepts for discovery and decision-making using data. Topics include descriptive statistics; probability and

sampling distributions; statistical inference; correlation and linear regression; analysis of variance, chi-squared, and t-tests; and application of technology for statistical analysis including the interpretation of the relevance of the statistical findings. Students apply methods and processes to applications using data from a broad range of disciplines. (Formerly MATH 108)

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Prerequisite: Placement as determined by the college's multiple measures assessment process or completion of a course taught at or above the level of intermediate algebra.

Alternate Listing: This course is also offered as STAT-C1000H.

SDEV-102: Pathways for College and Life Success

This introductory course is designed for students seeking direction in setting academic and life goals. A bio-psycho-social perspective will be used to highlight the person-environment dynamics crucial to a well-rounded preparation for academic and life success. Major topics will include evaluation of personal interests, abilities and values, educational planning, goal setting, and academic success strategies.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Transferability: Course credit transfers to both CSU and UC.

Departmental Recommendation: READ 100.

Technical Calculations

TECALC-087: Technical Calculations

This course covers practical use and applications of technical calculations most commonly utilized in the trades and industry. Topics include electrical measurements, temperature, volume, weight, and positioning including the number line, working with dedicated formula, applied problems, geometric principles, graphs, right triangles, coordinate systems, and scientific and engineering notation. Concepts, techniques and applications of arithmetic and elementary algebra emphasizing applications to practical problems. Interactive and traditional problem solving methods. Class interactive group exercises applying mathematical techniques to various applications and real world problems. A course in mathematical problems is frequently used by students enrolled in the trades

and industrial and engineering programs. Problems are drawn from the industrial field.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Note: The DE-LEC part of this class requires 6 hours per week of online instruction.

Note: 6 week class from 05/26/26 to 07/01/26.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

WST-691: Introduction to Wastewater Treatment

This is an introductory course in wastewater treatment. This noncredit course covers material included in the State Water Resources Control Board (SWRCB) grade I certification exam.

Credit Type: Noncredit course.

Grading Restriction: Graded on a Credit/No Credit basis only.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
4208	10	0.00	Arranged	Online - Online	DE-LEC			Caldwell-Betties,M

Note: The DE-LEC part of this class requires 7.2 hours per week of online instruction.

Note: This is a fully online class. Students will be required to complete online instructional content via Canvas. This class could offer some live online meetings, but students will have options on accessing that content. Students should log on to Canvas the first day of class to access classes.

Welding Technology

WELD-010: Introduction to Welding

This is an introductory course for students in any field that utilizes welding processes. Emphasis will be on Welding Safety, Thermal cutting, Gas Metal Arc Welding, and Shielded Metal Arc Welding in flat and horizontal positions.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
-------------	------------	--------------	-------------	-------------	-------------	--------------	------------	--------------

			---W---	05:35P - 09:25P	LAB			Murphy,A

Note: 6 week class from 05/26/26 to 07/01/26.

WELD-012: Oxy-Fuel Welding

This course provides entry-level training in oxy-acetylene welding, oxy-fuel cutting and oxy-fuel brazing.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.

			---W---	05:35P - 08:25P	LAB			Murphy,A

Note: 6 week class from 07/06/26 to 08/13/26.

WELD-046: Shielded Metal Arc Welding - Intermediate

This is an intermediate course in the Shielded Metal Arc Welding (SMAW) process. Vertical and overhead groove welds and the lab portion of the structural weld certification for the City of Los Angeles are stressed.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Prerequisite: WELD 045.

Alternate Listing: This course is also offered as WELD-646.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
4218	30	4.00	--T-R--	05:00P - 05:45P	LEC			Jimenez,I
			--T-R--	06:00P - 09:15P	LAB			Jimenez,I
			-M-W---	05:00P - 08:15P	LAB			Jimenez,I

WELD-080: Gas Metal Arc Welding - Beginning

This course introduces techniques and methods of Gas Metal Arc Welding (GMAW-S, GMAW Spray Transfer) in all positions and on various thicknesses of mild steel.

Credit Type: Earned units for this course are applicable to an Associate Degree.

Prerequisite: WELD 010.

Alternate Listing: This course is also offered as WELD-680.

Ref#	Sec	Unit s	Days	Time	Type	Build	Rm.	Inst.
4220	30	3.00	-M-W---	05:00P - 05:50P	LEC			Muller,B

			--T----	05:00P - 07:50P	LAB			Muller,B

WELD-646: Shielded Metal Arc Welding - Intermediate

This is an intermediate noncredit course in the Shielded Metal Arc Welding (SMAW) process. Vertical and overhead groove welds and the lab portion of the structural weld certification for the City of Los Angeles are stressed.

Credit Type: Noncredit course.

Prerequisite: WELD 645.

Alternate Listing: This course is also offered as WELD-046.

Ref#	Sec	Units	Days	Time	Type	Build	Rm.	Inst.
4222	30	0.00	--T-R--	05:00P - 05:45P	LEC			Jimenez,I
